WELCOME TO UNIVERSAL STUDIOS HOLLYWOOD

We have provided this guide to give you as much detailed information about each attraction experience as possible. Our goal is to ensure that everyone is able to make well-informed decisions about their ability to safely, comfortably and conveniently experience each of our attractions. If, at any time, you feel that you do not have enough information to make these decisions, please contact any of our experienced Team Members for help in planning your day.

Additionally, we have included specific information for guests with disabilities. This information provides a clear outline of the accommodations at each attraction, as well as the physical requirements for entering or exiting ride vehicles and other attraction areas. It is important to note that, although all of our Team Members are eager to make your day as pleasant as possible, they are not trained in lifting or carrying techniques and therefore cannot provide physical assistance. We suggest that guests with disabilities bring a companion who can provide any physical assistance that may be needed.

Our goal is to provide the best accommodation possible to all of our guests. With the information that follows, and the expert assistance our Team Members can offer in answering questions, we are confident the experience you have with us will exceed your expectations!
